Jackson Demonstration State Forest Advisory Group

DRAFT PROPOSED CHANGES November 2014

The Jackson Demonstration State Forest Advisory Group (JAG) is an advisory body of the Department of Forestry and Fire Protection (CAL FIRE) and the Board of Forestry and Fire Protection (Board).

Background and Importance

Policy for management of the state forests is provided by the Board of Forestry and Fire Protection, and the Demonstration State Forests are managed according to management plans prepared by CAL FIRE and approved by the Board. Existing legislation and Board policy provide over-arching direction and limitations upon the management of the state forests.

The Jackson Demonstration State Forest (JDSF) is a 48,652-acre forest owned by the State and managed by the Department of Forestry and Fire Protection. The largest forest in the State system, JDSF stands consist primarily of young-growth redwood, Douglas-fir, and hardwood tree species.

The Forest is managed primarily for research and demonstration associated with a range of forest management purposes, including environmental stewardship, timber production, and recreation. The large size of JDSF makes it uniquely suited to research and demonstration at the watershed or sub-watershed level, and provides an opportunity to test new management techniques and regulatory standards. Information gained through research and demonstration programs is disseminated and available for application to all of California's forestlands, public and private, industrial and non-industrial. In addition JDSF contributes to the economic stability of the local communities by providing high quality yields of forest products, which sustain local employment and tax bases. Outdoor recreation is another important benefit of JDSF.

Successful, well informed implementation of the updated Forest Management Plan is critical to JDSF operating within its mission.

Mission and Duties

Mission: The Mission of the JAG is to provide advice/recommendations to CAL FIRE and the Board regarding issues relevant to the periodic review of the JDSF Management Plan required under Board policy; ongoing implementation issues; and policy matters relevant to JDSF.

Duties: The JAG will conduct its activities in accordance with its Mission and in support of the goals of the Management Plan for JDSF. These goals are Research and Demonstration; Forest Restoration; Watershed and Ecological Processes; Timber Management; Recreation and Aesthetic Enjoyment; Information, Planning, and Staffing; Protection; Minor Forest Products; Property Configuration, and Education and Outreach.

Decision Making

Consensus Seeking The JAG will operate as a consensus-seeking body.

To determine a degree of consensus, members will note their level of support for items as, for example, Strong Support, Support, Disagreement, and Strong Disagreement. The JAG may modify these categories to better meet its needs. Issues without a broad degree of support will not move forward as representing the views of the JAG. The level of support for various items will be recorded.

If an item receives a vote of Disagreement, the group will be asked to continue working until it appears a resolution is not attainable, or move on to an area where more agreement is possible. When a resolution is not attainable, the members will note the nature of the disagreement and make a determination as to the best way to proceed in the particular issue area.

To the extent the group is able to provide a consensus based recommendation, the Director and the Board will give those recommendations the highest level of consideration. In the event consensus is not reached on any particular topic, the range of perspectives will be recorded and forwarded to the Director and the Board.

Where non-consensus recommendations or reports come forward from the JAG, the Director and the Board will give full consideration to the range of perspectives expressed by the JAG members and make their decisions based on the discretion and direction provided in statute and Board Policy.

All members must be fully advised of decisions made in their absence.

Minor and Major Decisions Not all decisions will have the same level of impact. Simple voting may be adopted for procedural or non-policy matters.

Select Decision Process in Advance Proposals for action should include the decision process to be used in considering the item.

Members are expected to always contribute their best personal thinking and act in the overall public interest, regardless of the initial positions of their communities of interest. Collaboration cannot be effective unless all parties are open to modifying their initial positions.

JAG Member Conduct

Members must be able to allocate time and resources to JAG activities. Attendance and participation are important to the continuity of the Group.

Should a conflict of interest arise for a member on a particular matter before the JAG, that member shall recuse him/herself from discussion and action on that matter.

Attendance

RSVP Members should advise the Chairperson and JDSF Forest Manager or designee if unable to attend a meeting. Members not in attendance can and should provide comment and input on agenda items to the Chairperson and the JDSF Forest Manager or designee prior to the meeting.

Extended or Frequent Absence If a member is unable to actively participate during the term of appointment, the Chairperson or the JDSF Forest Manager will ask him/her to reassess his/her ability to be an active member and may recommend replacement to the Director. The JAG as a whole will decide whether a member should be replaced due to absences.

Quorum A quorum is one person more than ½ of the current sitting JAG membership. In the absence of a quorum, the JAG will not engage in voting or taking actions, but may follow a consensus-seeking and informational process as a bridge to the next meeting when a quorum is present.

JAG Committees

Standing committees may be formed by consensus of the JAG to specifically address topics in the approved work plan.

The JAG in consultation with the JDSF Forest Manager may also form work groups or committees for topic-specific issues. Such committees will operate with well-defined scopes and specific start and end dates. The JAG may invite non-members who may provide technical expertise to the discussion.

All meetings shall be noticed at least 10 days in advance by sending an announcement of the upcoming meeting to all those who request to be notified of JAG meetings. An announcement also will be made to local newspapers and radio stations in Ukiah, Willits, Mendocino, and Fort Bragg. All meetings shall be open to the public and shall contain a section devoted to input from the public. The Chairperson may require that individuals and groups wishing to address the JAG to sign up at the beginning of

the meeting. Individual presentations may be limited by the Chairperson. The Chairperson may limit the total amount of time devoted to the public comment section. Additionally, the Chairperson may elect to solicit public opinion during other agenda items.
